Invitation to technical webinar

Wednesday 25 March 2020 | 14:30 - 16:00 CEST

Sustainable Food Systems and Nutrition:

Food Post-Harvest Losses

BACKGROUND

This international technical webinar is part of the series organized by the FAO eLearning Academy, Agreenium (l’Institut agronomique, vétérinaire et forestier de France) and UN-ESCAP (United Nations Economic and Social Commission for Asia and the Pacific). These webinars are an opportunity for all of us to share experiences and lessons learnt, discuss challenges, and propose innovative solutions and models. They aim to provide a holistic and comprehensive view of current trends in thematic areas related to global challenges, by combining development research and innovation perspectives.

The main objective of these technical webinars is to give practitioners the opportunity to interact with international experts, United Nations officers, University professors, researchers and fellow participants, throughout the world. Webinars can be attended as interactive online sessions on Zoom, where sharing perspectives and asking questions to experts is encouraged. These sessions are also recorded and therefore available at any time, through the FAO elearning Academy: elearning.fao.org.

FAST REGISTRATION HERE
OBJECTIVES OF THIS SESSION

- Present the impact of climate change on soil and land resources assessment
- Combine land management practices to tackle land degradation
- Share tools to support the implementation of sustainable soil and land management measures

SPEAKERS

This technical webinar will be delivered by Ms Rosa Rolle, Senior Enterprise Development Officer (FAO) and Ms Carola Fabi, Senior Statistician (FAO), and moderated by Ms Cristina Petracchi, Leader of the FAO eLearning Academy.

Rosa Rolle is a Senior Enterprise Development Officer in the FAO Nutrition and Food Systems Division. She leads a team working on actions to reduce food loss and waste. She has extensive experience working on food processing and packaging in Small Islands Developing States (SIDS), and has extensively worked across East and South-East Asia in capacity building and project implementation to manage quality and reduce food loss and waste in fresh product supply chains. She holds a PhD in food science from the Ohio State University, and has published a number of peer reviewed journal articles.

Carola Fabi is a Senior Statistician at FAO Statistics Division and the focal point for SDG indicator 12.3 on Food losses, where she leads the Methodological Innovation team. She holds a Master Degree in Economic Statistics and a Master Degree in Agricultural Economics. Carola developed the SDG indicator 12.3 Food Loss Index, supervised the development of the food loss estimation model and coordinated the “Guidelines for the measurement of harvest and postharvest losses” in 2014-2015. She is leading the statistical development of the new corporate Statistical Working Paper.

Cristina Petracchi heads the FAO eLearning Academy. She manages and coordinates the design, development, delivery and language adaptations of an extensive portfolio of eLearning courses and blended learning programmes, for the benefit of FAO member countries, and is responsible for the creation of University Masters’ and Post Graduate Degree Programmes. She engages actively in consolidating partnerships across United Nations agencies, academic institutions and universities, regional organizations, CSOs and NGOs, for capacity development.
articles as well as technical materials – in the field of post-harvest handling, packaging, processing, food safety and quality – tailored for development support. System and is coordinating the new Data Lab for statistical innovation. In addition to a University Degree in Biological Sciences, Ms Petracchi holds a PhD in Nutrition and Food Science, and has several years of experience of capacity development activities, in a number of countries.

HOW TO ATTEND

The webinar is free and open to everyone, provided you have the link to the platform. To join the webinar session on Zoom, kindly register here.

We suggest you to use Google Chrome in order to join the webinar. We also recommend you to check your time zone here.

Please feel free to share this invitation with your colleagues.
