Invitation to international technical webinar

10 November 2021 | 14:30 - 15:30 (Rome time)

Monitoring and sustainable financing for forest and landscape restoration

BACKGROUND

This international technical webinar is part of the series organized by the FAO elearning Academy, Agreenium (l'alliance de la formation et la recherche pour l'agriculture, l'alimentation, l'environnement et la santé globale), the United Nations Economic and Social Commission for Asia and the Pacific (UN-ESCAP) and Future Food Institute (FFI). These webinars are an opportunity for all of us to share experiences and lessons learnt, discuss challenges, and propose innovative solutions and models. They aim to provide a holistic and comprehensive view of current trends in thematic areas related to global challenges, by combining development research and innovation perspectives.

The main objective of these technical webinars is to give practitioners the opportunity to interact with international experts, United Nations officers, University professors, researchers and fellow participants, throughout the world. Webinars can be attended as interactive online sessions on Zoom, where sharing perspectives and asking questions to experts is encouraged. These sessions are also recorded and therefore available at any time, through the FAO elearning Academy: elearning.fao.org.

FAST REGISTRATION HERE
OBJECTIVES OF THIS SESSION

- Identify tools and processes for planning, implementing and monitoring forest and landscape restoration (FLR) interventions;
- Explain why FLR monitoring is important and the appropriate indicators to meet restoration objectives;
- Describe benefits and costs of FLR financing, as well as different priority areas, types of investor and funding sources.

SPEAKERS

This technical webinar will be delivered by Mr Christophe Besacier (FAO), Ms Mathilde Iweins (FAO), Mr René Zamora Cristales (WRI), and moderated by Ms Cristina Petracchi, Leader of the FAO elearning Academy.

Christophe Besacier is a Forestry Officer and currently coordinating the Forest and Landscape Restoration Mechanism (FLRM) at FAO, where he is providing technical assistance and implementing restoration projects in more than 20 countries. He mobilized resources to scale-up restoration reaching a USD 40 million portfolio with multiple key financial partners. He is involved in major international

Mathilde Iweins is currently in charge of the Asia Pacific portfolio of the FLRM, developing and implementing projects in the region. She joined the FLRM team in 2015 as an expert on ecosystem services, full cost accounting and local finance. She is a French agronomist with over 15 years of professional experience in natural resources management linked to sustainable agriculture and forestry, poverty alleviation and

René Zamora Cristales is Guatemalan, Senior Forest Economist and Coordinator of Research and Innovation for Initiative 20x20 in the Global Restoration Initiative at the World Resources Institute (WRI). In this role, he coordinates the Restoration Policy Acceleration Program to encourage innovation in public economic incentives. René has a Doctoral degree (PhD.) in Forest Engineering and
restoration initiatives such as the Bonn Challenge, the GPFLR and the UN Decade on Ecosystem Restoration. From 2009 to 2014, he was in charge of Silva Mediterranea. From 2000 to 2009, he worked as regional advisor for the French Ministry of Foreign Affairs in the Sahel and the Congo Basin regions.

Economics from Oregon State University, USA. In 2019 René received the recognition of “Outstanding Doctoral Research Award” from the International Union of Forest Research Organizations IUFRO. René’s work is reflected in more than 30 publications in scientific journals.

Cristina Petracchi heads the FAO elearning Academy. She manages and coordinates the design, development, delivery and language adaptations of an extensive portfolio of elearning courses and blended learning programmes for the benefit of FAO member countries and is responsible for the creation of University Masters' and Post Graduate Degree Programmes. She engages actively in consolidating partnerships across United Nations agencies, academic institutions and universities, regional organizations, CSOs and NGOs, for capacity development initiatives. In addition to a University Degree in Biological Sciences, Ms Petracchi holds a PhD in Nutrition and Food Science, and has several years of experience of capacity development activities in several countries.

HOW TO ATTEND

The webinar is free and open to everyone, provided you have the link to the platform. To join the webinar session on Zoom, kindly register here.

We suggest you to use Google Chrome in order to join the webinar. We also recommend you to check your time zone here.

Please feel free to share this invitation with your colleagues.
