Forest and Landscape Restoration Mechanism

# Overview of the FLRM courses

- The Forest and Landscape Restoration Mechanism (FLRM) offers a series of free e-learning courses in English and French.
- These courses are designed for individuals interested in advancing their knowledge of forest and landscape restoration (FLR).
- All courses are peer-reviewed for content accuracy and quality and offer a certification.
- FLRM courses empower practitioners, policymakers, and enthusiasts to contribute effectively to forest and landscape restoration efforts, aligning with global commitments.

The FLRM courses:

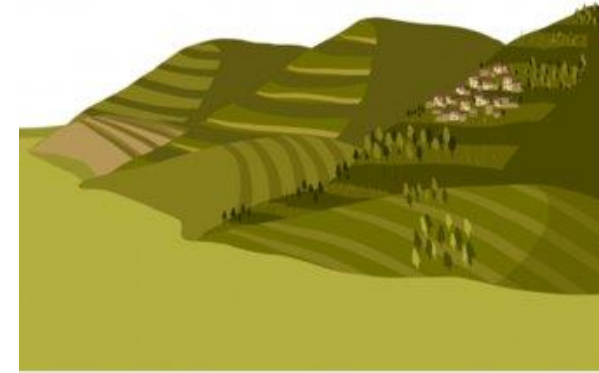

- [Introduction to forest and landscape restoration](#);
- [Monitoring forest and landscape restoration](#);
- [Sustainable financing of forest and landscape restoration](#); and
- [Developing bankable business plans for sustainable forest-based enterprises](#).

# Introduction to FLR

- Purpose: Introduce FLR concepts and steps.
- Emphasizes the benefits, challenges, and success factors of FLR.
- Addresses the impact of forest and landscape degradation on climate, food security, and livelihoods.

Year	Online Access	(%)	Downloads	(%)	Total
2021	823	56.22	641	43.78	<b>1464</b>

<b>Total</b>	<b>2103</b>		<b>1526</b>		<b>3629</b>

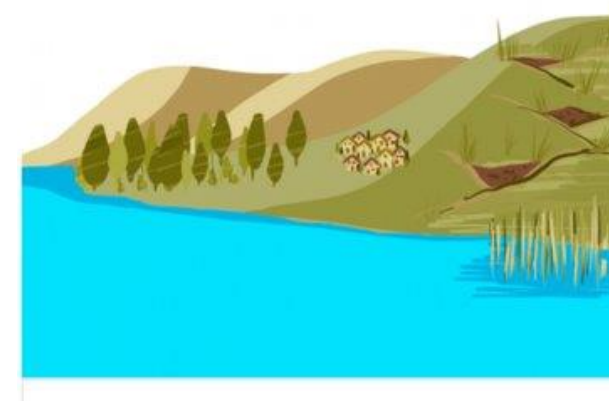

## By type of organization

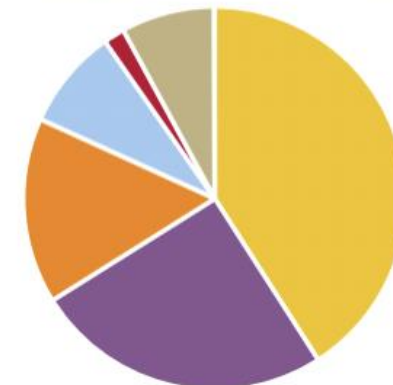

# Monitoring FLR

- Purpose: Equip practitioners to design and implement monitoring systems for FLR.
- Based on the FAO and WRI publication, "The Road to Restoration."
- Why monitoring is important for FLR, how to choose appropriate indicators to meet restoration objectives and design a restoration monitoring framework.

Year	Online Access	(%)	Downloads	(%)	Total
