

GCP/GLO/1027/GER Advancing and Expanding the Uptake of Minimum Dietary Diversity for Women (MDD-W) Indicator: Component 3

Capacity development on collection, interpretation and its use to inform food system transformative policies and programmes

GLOBAL OUTPUTS that support COUNTRY LEARNING

14 Feb 2024

Alexandra Tung,
Nutrition consultant 3

Develop capacity of stakeholders across the agrifood system in four countries – **Bangladesh, Madagascar, Malawi and Nigeria**

to use data and evidence and incorporate nutrition in national policies, programmes, strategies and investment plans, thus

- Maximising their impact to nutrition outcomes;
- Leverage tools and lessons to strengthen capacities on using an agrifood systems pathway approach to enable healthier diets across other countries

Tailored CD resources for national and subnational government actors and parliamentarians, informed by capacity assessments that identify country specific needs (Global/ **Country**)

Collaborated with a national partner in each country to:

- ✓ Conduct a capacity assessment on the targeted stakeholders at national and subnational levels;
- ✓ Train national and subnational stakeholders using existing FAO resources adapted to local needs - in person workshops were complemented by an FAO E-learning course
- ✓ Develop country briefs showcasing lessons learnt and a replication plan for further capacity development and dissemination

Agrifood system pathways to healthy diets: a stepwise approach

Improving human and planetary health through healthy diets from sustainable agrifood systems

Brochure highlights:

- ✓ importance of healthy diets from sustainable agrifood systems for improving human and planetary health
- ✓ valuable entry points to achieve healthy diets through sustainable agrifood systems
- ✓ relevant FAO tools for each agrifood systems component
- ✓ examples of interventions at country level.

Target audience: Policymakers and programme planners

2023 #8 p.

E-learning modules on nutrition-sensitive agrifood systems:

- Nutrition, food security and livelihoods. Basic concepts
elearning.fao.org/course/view.php?id=194
- How to conduct a nutrition situation analysis
elearning.fao.org/course/view.php?id=393
- Improving nutrition through agriculture and food systems
elearning.fao.org/course/view.php?id=307
- Design and monitor nutrition-sensitive agriculture and food systems programmes
elearning.fao.org/course/view.php?id=603
- Agrifood system pathways to healthy diets: A stepwise approach
<https://elearning.fao.org/course/view.php?id=976>
- Sustainable Food Value Chains for Nutrition
